PRESS RELEASE

CaoSys & Q Software Global Form Strategic Alliance

15th September 2010

CaoSys, a developer of Governance, Risk, and Compliance (GRC) and productivity solutions for Oracle E-Business Suite and Q Software, a leading player in the JD Edwards space announced this week that they are forming a strategic alliance to enable more organizations to quickly and effectively improve their internal controls while saving time and money.

"We are very excited by the opportunity to work with Q Software; they have a proven track record as one of the leading players in the delivery of audit and security related solutions for JD Edwards and we are pleased to be joining forces to help them to expand their solution portfolio into the Oracle E-Business Suite space. ", said Craig O'Neill, CTO at CaoSys.

CaoSys offers several solutions that fall into two distinct market segments, compliance and productivity. The companies compliance based solutions, CS*Audit, CS*Comply and CS*Secure enable organizations to implement data auditing, segregation of duties (SOD) internal controls and data security based controls. Their productivity based solutions, CS*Form, CS*Accelerate and CS*Enquire cater for several needs such as onscreen interactive reporting, application extensions, application building, application augmentation and ad-hoc querying to name but a few.

"We are proud to work with CaoSys to extend our leadership position as an independent supplier of security, risk management and compliance solutions for Oracle applications." said Mike Ward, Managing Director of Q Software Global Limited. "This is a natural extension of the GRC and security solutions we already provide to over 250 JD Edwards and PeopleSoft customers. Q Software's GRC solutions complement the functionality in JD Edwards EnterpriseOne, JD Edwards World and PeopleSoft Enterprise, to help customers enhance their business controls whilst driving down their costs of compliance. Now we can add e-Business Suite solutions to our market-leading portfolio. "

"Using our technology for improving internal controls within Oracle E-Business Suite and Q Software's sales and support infrastructure we hope to be able to offer even more organizations innovative ways of saving time and money while ensuring that they can meet with their regulatory obligations and security needs" continued O'Neill.
